Subject: Lyndsey Nguyen
Importance: High

Good Evening:

As we approach the end of another tour here at Niagara Falls Boulevard, I feel compelled to reach out to ERT regarding Lyndsey. We both are the last two people here at the site tonight and the success of this Site would be impossible without her. She has done a tremendous job developing our action memo strategy, creating all instrumentation procedures and QC, Decon tent design and screening process, training Weston and myself, assisting me with public affairs, overseeing site activities in my absence. I could go on and on.

I am not sure how awards work or recognition in ERT but I strongly recommend Lyndsey be commended in some way for all her efforts with Niagara Falls Boulevard, Holy Trinity Cemetery and Canadian Radium & Uranium Sites (Outstanding review, Step Increase, etc.). These sites have become more and more high profile (As you may discover with my recent

PolReps). I am very confident with what we have done and will be doing in the future with these sites. A big reason for that is Lyndsey's hard work and dedication.

Thanks.

Regards,

Eric
